Please be so kind as to tell me a little about yourself, family and lifestyle !!

How did you find us? Google, EBay, Terrific Pet's etc. or referral?

Which specific puppy on my site interests you?

Are you looking for a specific size, color, gender or price?

Why have you chosen this particular breed?

Are you looking for a pet or are you planning to breed?

If you are wanting to breed are you a breeder now and what is your website address?

Do you live locally; would you have to travel, would you have an agent pickup your puppy up or will there be a need for shipping?

Have you owned pets in the past?

What kind?

How long?

Have you ever had to relinquish a pet to a rescue or shelter? Please elaborate.

Who will be primarily responsible for the dog's care (feeding, walking, training, grooming, etc.)?

Will the dog be primarily inside or outside?

Are there children in the home?

If so how old are they?

How would they be instructed in the care of the dog?

Are there other pets in the home?

If so how many and what breeds?

Have you researched this breed and understand the maintenance, and cost of care that can occur?

Do you plan to give any obedience training?

Do you believe a pet should be spayed/neutered?

How often is someone at home?

How long will the puppy be alone?

Will there be time to walk and play with the dog?

Please include any additional questions that you may have or additional information about yourself that would assure me that you would be a suitable owner.

I have been blessed to place my "babies" into wonderful forever homes over the years.

I appreciate your time in telling me about yourself because I only consider serious inquirers.

God Bless ☺

Diane
